

Spring Only Wait List – U5

Registering for the Spring Only Wait List indicates that you would like to be placed on a team only for the Spring Season.

Spring Only placement is done on a first-come, first-serve basis and is dependent on openings that become available on current teams. If we have enough players & volunteer coaches to create new teams, we will look to do that as well.

The office will contact players regarding team availability & placement prior to the spring season. If your player is placed on a team, you will be provided with instructions to complete registration by submitting payment. The cost of playing U5 Spring Only is \$30/player.
